Lifeline Announces 2020 Results

April 22, 2021

PAINESVILLE, Ohio— Lifeline, Inc., Lake & Geauga Counties' Community Action Agency, served 2,470 unduplicated low-income families in Lake & Geauga Counties, or 4,724 individuals, in 2020 according to the agency year-end report. Additionally, the agency's 2-1-1 hotline, which operates in Lake County only, provided information & referral services to 34,232 inquiries, many of those related to the COVID-19 pandemic.

"We're very pleased to announce our 2020 results," said Carrie Dotson, Executive Director at Lifeline, Inc. "2020 was a year when our community needed us more than ever and our results clearly show the effects of the current economy. We have been really pleased with the different ways we've been able to assist our residents through the pandemic, including with food assistance for senior citizens, financial assistance with emergency rent and utilities, in providing PPE kits and through a WIFI partnership with Painesville City Schools."

The report details the demographics of each household assisted by Lifeline in 2020. Of the 4,724 individuals served in 2020, 62% were Caucasian, 20% African-American, 3% Hispanic and 15% represented other ethnicities or multi-race families. Sixty-one percent of all individuals served were female.

Of the individuals served, 32% fell within the 0-17 age range; 35% fell within the 18-54 age range; 19% fell within the 55-69 age range; and 14% fell within the 70 years and older age range.

Of individuals age 24 and older, 35% had a high school diploma or GED; 22% had some post-secondary education in addition to a high school diploma or GED; 15% were non-graduates completing some high school; 2% had only education levels through 8th grade and 10% had completed a two-or-four year-degree. Sixteen percent did not answer.

Of the 2,470 households assisted in 2020, 57% were single person homes; 24% were single-parent households headed by a female; 9% were households with two adults; 7% were two-parent households; 1% was single-parent households headed by a male and 2% were other types of households.

Other pertinent stats include: 7% of individuals served had no health insurance and 24% of individuals served were disabled. Of the 2,470 households served, 39% rented housing; 55% owned their own home; and 6% were homeless.

"This year we've seen several notable shifts in our demographics, likely from the changing economy and the impacts of the COVID-19 pandemic," Dotson said. "We saw so many more families who have been traditionally middle class, but who had COVID-19 financial impacts to their employment and eventually needed help. We were so pleased to have the CARES Act and other relief funding to meet their needs and keep their families

afloat until this pandemic ends.”

Lifeline for the Empowerment and Development of Consumers was founded in 1973 with the mission of helping Lake County residents by providing them assistance and life skills programming that is designed to increase self-sufficiency. In 1980 Lifeline became a participating agency of the United Way of Lake County, UWLC, and in 1987 was designated a community action agency by the Ohio Development Services Agency, ODSA. In 2008, Lifeline was designated as a mental health agency by the Ohio Department of Mental Health and Addiction Services. Lifeline received interim designation as Geauga County’s community action agency in 2020.

Today Lifeline continues with the same mission of helping Lake County’s low-income residents break the cycle of poverty and make the transition from agency-dependency to self-sufficiency. Lifeline’s current programming includes services in the healthcare, housing & energy assistance, information & referral services, guardianship, and consumer education & job training areas. Our motto is ‘helping people, changing lives.’ Lifeline is currently funded by grants through the ODSA, the Lake County Board of Commissioners, the Lake County ADAMHS Board, Lake County Department of Job & Family Services, the City of Mentor, the Western Reserve Junior Service League, the Lake County Board of Developmental Disabilities, Lake Health, UWLC and through private donors.
